## Alassio - The pearl of the Ligurian Riviera

Alassio is one of the most famous holiday resorts on the Western Ligurian Riviera. It is a stretch of land squashed between the sea and the hills, with a splendid green bay opening onto the sea.

If we consider its geographical position, the expansion of its beach, the possibility to swim from March to November, the shallow depth, the gentleness of its climate through the whole year, the quality of the service offered by over 100 bathing establishments and the panoramic view both from Capo Mele and from Capo S. Croce, Alassio must undoubtedly be regarded as one of the best beaches in the world. The beach with its very fine grey-white dustless sand stretches over four kilometres to join the seaside hamlet of wonderful Laigueglia.
