**Program**

This nice Program starts with an overnight in the area of **Lake Garda**, with the opportunity of taking a long walk on the lakeside and of course have a large Italian ice-cream

Before reaching the southern part of Tuscany, you will have the chance of visiting the land of Prosciutto di **Parma** and enjoy a delicious tasting of this number-one Italian product. **Is it possible, according to your experience , as a foreign not to talk about (not to remember) the fine quality of Italian food and specialties?**

Before arriving in Chianciano Terme, you will be invited to a Wine-tasting of some of the best red-wine qualities as: **Montepulciano** and **Brunello di Montalcino**. **Would you remember the first time you had a sip of our warm wines?**

From Chianciano you will proceed to **Perugia**, and **Assisi**. In Perugia you will visit the world-wide famous chocolate factory "Perugina"-you certainly know the starry wrapped chocolates Baci (Kisses) and "its historical museum."

By looking through the windscreen of an oldtime cabrio one really can experience the Tuscany's hills the way they did it decades ago. Seize the chance and pass this unique landscape for example with a Maggiolone VW (optional).
