Emilia: Land of Motors

If the "Via Emilia" had a voice, it would be a roar. There is no place like Emilia Romagna: in a few Kms concentrate many of the myths of the motorcycling history: Ferrari, Ducati, Lamborghini, Maserati, De Tomaso, Dallara, Malaguti, Morini. True masters of the motorcycle industry, the result of a technologically cutting edge region. There are 12 museums placed along the "Via Emilia", from Reggio Emilia to Rimini, that join together in a single circuit named " terra dei motori"..

The most fascinating...

The Ferrari Museum
It doesn't need introductions: the name Ferrari evokes the red of a dream car all over the world. If you visit the region of Emilia you can't miss the Ferrari Museum, close to his historical factory.
A true repository of the myth, the Galleria Ferrari of Maranello gathers the cars, images and trophies that have made the Company's history. In addition to the permanent exhibition of the most significant historical pieces, including the first Ferrari car, the 125 S of 1945 and Enzo Ferrari's office in Modena

with original items and furniture, the Galleria shows the newest racers and road cars.

The Lamborghini Museum

The legend tells that Lamborghini took the idea of creating a car company after a huge fight with Enzo Ferrari. In 1963 the "Automobili Ferruccio Lamborghini" was founded in S. Agata Bolognese, the company in the next years produced some of the most beautiful and powerful cars ever made. You only have to mention names like Miura, Espada, LM004, Countach and Gallardo to make every car fan dream!

QUICK IDEAS FOR A SUCCESSFUL SEASON 2009

Toscana: The ancient Camellias in Compitese - Lucca

When from Lucca we leave Tuscany, region renown all over the world, along the road that links Monte Pisano with Pontedera, we won't encounter any cypresses or grapevines, any hotels or tourists, no queues or souvenirs. In the narrow valley from Pieve to Compito there is a "bite-sized" Tuscany with its tiny quiet villages, with its olive trees that grow upon steep slopes, but above all with its bright and colourful centenarian Camellias. Villa Orsi, a large estate that dates back to the XIXth century and located in the middle of these small valleys, is famous for its gardens full of ancient camellias. Here is produced a very tasteful biological olive oil that has to be combined with other specialties, such as the famous spelt soup from Lucca. But before doing that, it's worth going for a walk along the small streets and paths that go up from the village towards the mountains.
